Avrupa Minerals featured on CEO Clips

Avrupa Minerals Ltd. (AVU:TSXV) is pleased to announce that the Company will be featured on CEO Clips on The Documentary Channel. In the short presentation, Paul Kuhn, President and CEO of Avrupa, discusses the near-term future of the Company and its successful “Prospect Generator” business model.

CEO Clips, a series which profiles the most innovative publicly traded companies in North America, will feature Avrupa on The Documentary Channel beginning today and running on weekdays between 6 a.m. and 12 a.m. through March 2nd. It can also be viewed online directly from the Avrupa website: www.avrupaminerals.com

In addition the clip will be posted on these financial portals: [BNN.ca Finance](http://BNN.ca), Canadian Business Journal, German Financial Portal, Thomson Reuters Insider Network, MSN Money, Stockhouse, YouTube, Blinkx, on the AVU stock symbol page, as well as on CEO Clips.

The Documentary Channel is “a digital television station devoted to showing the best documentaries from Canada and around the world. With its special emphasis on feature length films, watching Documentary is like having a cinema in your own living room, showing award winning films twenty-four hours a day, seven days a week.”

Avrupa Minerals Ltd. is a growth-oriented junior exploration and development company focused on discovery, using a prospect generator model, of valuable mineral deposits in politically stable and prospective regions of Europe, including Portugal, Kosovo, and Germany.

The Company currently holds 15 exploration licenses in three European countries, including nine in Portugal covering 2,980 km², five in Kosovo covering 153 km², and one in Germany covering 307 km². Avrupa operates three joint ventures in Portugal, including:

- The **Alvalade JV**, with Antofagasta, covering one license in the Iberian Pyrite Belt of southern Portugal, for Cu-rich massive sulfide deposits;
- The **Covas JV**, with Blackheath Resources, covering one license in northern Portugal, for intrusion-related W deposits; and
- The **Arga JV**, also with Blackheath Resources, covering one license located adjacent to the Covas JV, for intrusion-related Au-W deposits.

Avrupa is currently upgrading precious and base metal targets to JV-ready status in a variety of districts on their other licenses, with the idea of attracting potential partners to project-specific and/or regional exploration programs.
