

**Avrupa to exhibit at VRIC and Mineral Exploration Roundup, Vancouver**

**Avrupa Minerals Ltd. (AVU:TSXV)** is pleased to announce that we will participate at the upcoming Vancouver Resource Investment Conference on January 24-25, 2016. Avrupa's technical and financial management will be available at Booth #623 during the conference at the Vancouver Convention Centre West from 8:30am to 5:30pm. In addition, Avrupa will provide a separate corporate presentation at Workshop 2 on Sunday afternoon, January 24<sup>th</sup>, at 2:00 pm PST.

At the AMEBC Mineral Exploration Roundup 2016, Avrupa will exhibit at the Core Shack on January 27-28, 2016. The Company will display core from its Slivovo Gold Project, located in the Republic of Kosovo. Project technical management will be present at the display for the duration of the exhibition held at the Vancouver Convention Centre East.

In order to advertise projects available for joint venture, Avrupa has added a new page to its website: [http://www.avrupaminerals.com/available\\_for\\_jv/](http://www.avrupaminerals.com/available_for_jv/). The page contains links to information pertaining to projects in the Iberian Pyrite Belt and Ossa Morena Zone of southern Portugal. The projects include Marateca, Mertola, and Santa Margarida for copper- and zinc-bearing massive sulfide targets and the Alvito IOCG target.

**Avrupa Minerals Ltd.** is a growth-oriented junior exploration and development company focused on discovery, using a prospect generator model, of valuable mineral deposits in politically stable and prospective regions of Europe, including Portugal, Kosovo, and Germany.

The Company currently holds nine exploration licenses in three European countries, including six in Portugal covering 3,821 km<sup>2</sup>, two in Kosovo covering 47 km<sup>2</sup>, and one in Germany covering 307 km<sup>2</sup>. Avrupa operates three joint ventures in Portugal and Kosovo, including:

- The **Alvalade JV**, with Colt Resources, covering one license in the Iberian Pyrite Belt of southern Portugal, for Cu-rich massive sulfide deposits;
- The **Covas JV**, with Blackheath Resources, covering one license in northern Portugal, for intrusion-related W deposits; and
- The **Slivovo JV**, with Byrncut International, covering one license in central Kosovo, for gold related to carbonate sediment-hosted deposits in the Vardar Mineral Trend.

Avrupa is currently upgrading precious and base metal targets to JV-ready status in a variety of districts on their other licenses, with the idea of attracting potential partners to project-specific and/or regional exploration programs.
