## Prospect Opportunity Generator focused on aggressive exploration in politically stable and prospective regions of Europe

### Investment Highlights

- Seven licenses in three European countries: Portugal, Kosovo, Germany.
- 1 JV in Kosovo; major drill program starting in Portugal
- Projects located in historic mining districts with existing or formerly-producing mines, often since pre-Roman times.
- All areas have strong geological potential for discovery of further economic metal deposits.
- Shareholder value created through development of project portfolio to joint venture or sell to larger mining-oriented companies.
- For every C\$ raised, we can spend more than C\$1.50 on exploration due to JV partner funding
- Strong, dedicated management team with discovery track record and extensive experience from exploration to development
